ONE-PAGE SUMMARY

AI AGENTS FOR YOUR AGENCY.

We install AI agents that chase status, draft client reports and keep your CRM clean, inside the tools you already use. Then we run them every month.

WHAT IT COSTS

Step	What you get	Time	Price
Audit	Workflows mapped, hours counted, fixes ranked	1 to 2 weeks	From $1,500
Setup	Agents installed in your tools, team trained	About 4 weeks	From $7,500
Subscription	Agents run, fixed and improved	Monthly	From $2,500/mo

Fixed prices. Setups are 50% upfront, 50% when all your agents are live. The subscription starts when your first agent goes live, with a 3-month minimum, then month to month.

WHAT THE AGENTS DO

- **Client reporter:** drafts the weekly client update for your PM to check.
- **Intake and scoping:** turns a request into a project with tasks, owners and dates.
- **Capacity planner:** shows who's overloaded and who has room.
- **SOP assistant:** answers "how do we do X?" from your SOPs.
- **CRM cleaner:** keeps contacts, deals and stages accurate.
